

Grade 4 Science and Technology

Term 1 - 40 complete lesson plans

Ready to teach, in the KICD lesson-plan format | 35-minute lessons | PDF and editable Word

ABOUT THIS PACK

40 complete, ready-to-teach Grade 4 Science and Technology lesson plans for Term 1, covering plants, animals and human digestive system.

TOPICS IN THIS PACK

Topic	Name	Lessons
1.1	Plants	12
1.2	Animals	12
1.3	Human digestive system	16

INSIDE EVERY LESSON PLAN

- The specific learning outcomes, key inquiry question, core competencies, values and PCIs, and the resources needed.
- A timed lesson flow: what the teacher does and what the learners do, from introduction to summary.
- The key content (a worked example, notes or a practical with its expected results), then four practice questions with the answers for the teacher.
- The common mistake to watch for, and ideas for learners who need support and for those ready for more.
- A four-level CBC assessment rubric (EE, ME, AE, BE), homework, and a blank reflection space to fill in after teaching.

A TASTE OF LESSON 1

What makes something a living thing

By the end of the lesson, the learner should be able to list the general characteristics of living things

Characteristics of living things

Living things share certain characteristics: they grow, reproduce (make more of their own kind), respond to their surroundings, need food/nutrients, breathe (respire), and eventually die.

Non-living things, like rocks or chairs, do not do any of these things on their own.

You also receive this pack as an editable Word file, so you can change any lesson to suit your class before you print it. Lessons follow the order of the KICD curriculum design.
