

Grade 5 Agriculture and Nutrition

Term 3 - 44 complete lesson plans

Ready to teach, in the KICD lesson-plan format | 35-minute lessons | PDF and editable Word

ABOUT THIS PACK

44 complete, ready-to-teach Grade 5 Agriculture and Nutrition lesson plans for Term 3, covering home hygiene, laundering cotton item, repairing garments and constructing innovative gardens.

TOPICS IN THIS PACK

Topic	Name	Lessons
3.2	Home Hygiene	9
3.3	Laundering Cotton Item	10
4.1	Repairing Garments	11
4.2	Constructing Innovative Gardens	14

INSIDE EVERY LESSON PLAN

- The specific learning outcomes, key inquiry question, core competencies, values and PCIs, and the resources needed.
- A timed lesson flow: what the teacher does and what the learners do, from introduction to summary.
- The key content (a worked example, notes or a practical with its expected results), then four practice questions with the answers for the teacher.
- The common mistake to watch for, and ideas for learners who need support and for those ready for more.
- A four-level CBC assessment rubric (EE, ME, AE, BE), homework, and a blank reflection space to fill in after teaching.

A TASTE OF LESSON 1

Surfaces found in the home environment

By the end of the lesson, the learner should be able to: a) identify surfaces made from different materials in the home; b) describe the general properties of each surface type

Home surfaces

Homes have surfaces made from different materials, such as glass (windows), wooden floors or furniture, earthen (bare soil) floors, cemented floors, and tiled floors or walls. Each material has different properties - glass is smooth and can break, wood can absorb moisture, and cemented or tiled floors are hard and durable.

Knowing what a surface is made of helps decide the best, safest way to clean it.

You also receive this pack as an editable Word file, so you can change any lesson to suit your class before you print it. Lessons follow the order of the KICD curriculum design.
