

Grade 9 Agriculture and Nutrition

Term 3 - 38 complete lesson plans

Ready to teach, in the KICD lesson-plan format | 40-minute lessons | PDF and editable Word

ABOUT THIS PACK

38 complete, ready-to-teach Grade 9 Agriculture and Nutrition lesson plans for Term 3, covering disinfecting clothing and household articles, grafting in plants and homemade sun dryer.

TOPICS IN THIS PACK

Topic	Name	Lessons
3.2	Disinfecting Clothing and Household Articles	12
4.1	Grafting in Plants	13
4.2	Homemade Sun Dryer	13

INSIDE EVERY LESSON PLAN

- The specific learning outcomes, key inquiry question, core competencies, values and PCIs, and the resources needed.
- A timed lesson flow: what the teacher does and what the learners do, from introduction to summary.
- The key content (a worked example, notes or a practical with its expected results), then four practice questions with the answers for the teacher.
- The common mistake to watch for, and ideas for learners who need support and for those ready for more.
- A four-level CBC assessment rubric (EE, ME, AE, BE), homework, and a blank reflection space to fill in after teaching.

A TASTE OF LESSON 1

Why disinfect clothing and household articles

By the end of the lesson, the learner should be able to: a) define disinfection; b) explain its importance

Killing germs

Disinfection kills or reduces germs (bacteria, viruses, fungi) on articles. Washing removes dirt; disinfecting kills germs that washing may leave.

Articles needing disinfection: towels, handkerchiefs, socks, aprons, dust coats, kitchen cloths, babies' nappies, a sick person's clothing and bedding.

You also receive this pack as an editable Word file, so you can change any lesson to suit your class before you print it. Lessons follow the order of the KICD curriculum design.
